SPEEDED ALARM HASTENS SERVICE

No. 1 Engine Co. Gets to Box 1,100 Feet Away in 75 Seconds After Bell Sounds.

Seventy-five seconds after the alarm sounded No. 1 engine company reached box 14 at State and Broad seets, at 3 o'clock yesterday afternoon. The alarm was pulled by former Alderman Fred C. Ives. The autochemical engine and Chief Mooney, who came from headquarters in Middle street, were only a second behind. No. 1 engine company is located just 1,100 feet away from the box. Allowing 15 seconds for the "hitch" and to get the bell the engine company made the run of nearly a quarter of a mile, with one turn, in about a minute. There is no question but that the time is at least a minute faster than could have been before the alarm system was speeded up.

Gives Up Letters As Matter of Duty

Washington, Aug. 11.—Corporal Harry M. Swartz, the clerk in the paymaster's department of the United clates Marine Corps, positively denied today that there had been any promise of promotion or reward to induce him to surrender Mrs. Sutton's personal letters for use by the government in the inquiry at Annapolis. He gave them up "out of a sense of duty." He had tried, to become an officer in the service but had failed and when he had intended to try again he found that he had passed the age limit. Swartz denied that he had misrepresented his position in the corps to Mrs. Sutton.

"It is too serious an offense in the military service," he said, "to pretend being other than what one really is and I have been around a military office too long to pose as other than a clerk."

(Special to the Farmer.) Hartford, Aug. 11 .- The Senate to day voted to impose a State tax of 1-2 a mill on the grand lists of 1909 and There was considerable opposition to the measure from Senators Middleton, Fenn and Higgins on the ground that a State tax was not needed and the State ought not to depart from the policy of twenty years in refraining from laying one. Senator Arnold, however, stoutly defended the exceed the estimates for the next two years and that Connecticut would come out even.

Senator Arnold, chairman Senator Arnold, chairman of the Fi-mance committee, also told the Senate that the committee had been informed by the comptroller and the State treasurer and the tax commissioner that it is absolutely essential that some such tax should be laid to meet some such tax should be laid to meet the growing expenses of the State. Senator Arnold mildly criticised past General Assemblies for burdening the State with a heavy bonded debt.

George Previs, a tow headed youngster of 10 years, and his chum, Dominick Longo, are great admirers of the inick Longo, are great admirers of the realistic school in literature. Their thirst for knowledge of the doings of Jesse James caused them to take three copies of the tales of that hero yesterday from the store of Jacob Schwartzkopf of 747 East Main street. The proprietor of the store was not in at the time that the 15 cents' worth of goods was taken, but his fair daughter Emma was acting as saleslady. CONNECTICUT COMPANY LAY TRACKS AT

Is Placing Ten Foot Centers at Main and Golden Hill Streets Though Permit Was Refused-Lee Not Seeking Injunction—Did He Say "Go Ahead?"

All night long the Connecticut Company employed a gang of men who worked with steaming haste to put down a curve at Golden Hill and Main streets, located upon ten foot centers. A hundred feet of the special work so laid will run north on Main street and a hundred feet will run south. This is part of the street covered by one of the petitions of the New Haven railroad, which the Common Council denied at its meeting Monday evening. The company not only has no authority to lay its tracks upon ten foot centers at this point, but so far as Main street is concerned, is hilleged to be defying the will of the city as expressed by the aldermen.

The petition of the company to lay its tracks on 10 foot centers from Gilbert street to East Washington avenue was refused by the council at its meeting Monday night.

Mayor Lee is aware of the violation of the law. He denied to-day that he had given permission for the work to

MANILA CIGARS HELD IN BOND

(Special from United Press.)

Washington, Aug. 11.—A cablegram received at the Insular Bureau of the War Department from Manila to-day says that the number of cigars exported to the United States in the last six months has been 2,914,000. A million or more of these cigars were sent to this country in anticipation of free trade under the new tariff law and were held in bond until it was enacted. Under the new law the Philippines are permitted to send 150,000,000 cigars a year free of duty, but the government officials are under the impression that it will be many years before that limit is reached.
